The Benefits of Summer Camp at Rolly Pollies

Your 3 and 4-year-old: For many, Rolly Pollies is already a place they love, and they are very secure and happy as they join in the activities without mom or dad. Many of our 3 and 4-year olds have been attending preschool and continuing this routine will help keep them in the swing of things for the fall, whether returning to preschool, or getting ready for that big first day of kindergarten! It is an exciting time to learn how to work with others, take direction from adults other than their parents, and of course, make new friends in an exciting and positive atmosphere.

Your 5 and 6-year-old: On top of the obvious physical activity that your child will be getting at our facility, it is a great opportunity for your 5 and 6-year-old to expand socially. At this age making friends and interacting with them in a cooperative environment is ideal. Our 5 and 6-year olds are the middle of the pack at Rolly Pollies Summer Camp and confidence is built as they model activities for our youngest campers, yet they still have older children to look up to. Children in this age group love the social aspect of our camp and practice making new friends, all while having the time of their life!

Your 7, 8 and 9-year-old: Our oldest campers tend to become our leaders throughout the summer program. Self-esteem and confidence really take off as they are empowered to be leaders. Our 7 - 9-year olds usually play our cooperative games while assuming a leadership role and guide the younger campers through the games and activities. Art projects are detailed and neat and their ideas are often "copied" by younger campers who look up to them. Nothing is more rewarding to these children than being looked upon as the "big" kid and enjoying all the confidence this role has to offer.
